

How to Disable Grokster

1. Select **Options...** from the **Tools** menu.

Tools Menu

2. Select the **Sharing** tab. Uncheck the box labeled **Share files in 'My Shared Folder'**. To make sure you are not sharing any other folders click the **Add Other Folders** button.

Options

3. Look for drives and folders with red boxes next to their names. These drives and folders have shared sub-folders. Expand the directory tree by click the + buttons, and uncheck all of the selected check boxes. Click **OK**. Click **OK**.

Shared Folders

You cannot unshare "My Shared Folder".
